

THE Gleichen Call

NINETEENTH YEAR, NO. 33

GLEICHEN, ALBERTA, WEDNESDAY, NOVEMBER 4, 1925

Prov. Library Dec 31 1925 \$2.00 A YEAR

ALBERTA PACIFIC ELEVATOR BURNED EARLY SUNDAY

The town boys who were out celebrating Hallowe'en about midnight Saturday saw smoke coming out of the Alberta Pacific Grain Company's elevator and sounded the fire alarm, thereby showing that Gleichen's fun-loving boys are also mighty useful citizens when the occasion arises, and be it known these boys on the spur of the moment organized themselves and while certain ones were assigned to blowing the whistle and others to starting the electric alarm, the others sped off to bring down the hose reel and chemical engines. Good for you boys. Here's a good nucleus for a future fire brigade.

The cause of the fire may never be known but is assigned to spontaneous combustion. When the fire brigade by quick work rekindled the scene smoke was pouring from the roof and flames were to be seen at the bottom of the elevator in fact the whole bottom was a roaring furnace. It was at once recognized that the elevator was doomed and attention devoted to saving the records in the small office building and saving the coal sheds of the same company only a few feet east of the burning structure. In both attempts they proved successful, which was well for the U. G. G. elevator for had the coal sheds taken fire it would have been almost impossible to have saved the U. G. G.

Fortunately there was very little wind at the time and the heavy white rain fell heavily upon them, shifting a little from time to time during the two hours it required to burn the heavy timbers to the ground leaving a smouldering mass which is still burning burning and will continue to burn for some days to come.

The loss is placed at about \$17,000, although the elevator could not be replaced for near that amount, it being one of the two best elevators in Alberta, having a capacity of 70,000 bushels. There were only about 5,000 bushels of grain in the elevator at the time, which of course, is figured in the loss mentioned.

Several railway cars near by had to be "pinched" away, but a little later a freight train coming in detached the engine and moved them further away.

The section house occupied by Foreman Johnston required no little attention and all the furniture was removed to places of safety.

Manager W. D. Anderson stated to the Call that although it was too late in the season to re-build the elevator it would be replaced in time for next season. In the meantime he is located at the N. Bawlf Grain Co. elevator where he will carry on business as usual.

The Alberta Pacific Grain Co. was the first to build an elevator at Gleichen, which was erected in 1908 and later additions were added to it. A few years ago it was found necessary to pull down the entire structure and re-build it.

Manager Anderson who has been a very busy man since the fire, has telephoned the Call to express his most sincere thanks to all who in any way assisted at the fire. He is particularly pleased the Fire Brigade saved the coal sheds and contents, and also that his books and records were all saved.

The returns for Bow River Constituency as they arrived were without doubt the most unsatisfactory in history to all concerned and even now no complete report of the different polls can be obtained. The need of system in this, however, is only characteristic of the way the Liberal campaign was conducted throughout at least so far as it concerned this particular district, and let us hope that when the next election comes along a decided change at least in regard to obtaining the results of the different polls.

LATEST ELECTION RETURNS THIS MORNING

Today the Dominion of Canada stands practically without a government representative of the people. That is we have not elected any party with a majority, which leaves Canada in the most peculiar predicament it has ever known. The only thing we are certain of is that another election will have to be held at no far distant date; also that the leaders of the two great parties are just now having the time of their lives arguing as to who should hold the reins of power. The Conservatives believe they should be in power because their party has the majority of elected members of any party in the house. The Liberals believe the Conservatives have not a majority of the whole house claim they should hold on until they are defeated in session, believing they will have sufficient support from the Progressives to at least do some business before another election is brought on.

The big drop in Progressive members elected leaving them 38 less members, still gives them the balance of power with either of the old parties.

The whole result is surely peculiar and undoubtedly will mean a very hot election when the time arrives.

GARLAND WINS BOW RIVER CONSTITUENCY

Whatever else may have happened last Thursday there is no disputing that Mr. E. J. Garland, the U.F.A. candidate for Bow River constituency, was duly and fairly re-elected to be our representative, and he and his followers are to be congratulated in making the result quite clear and decisive. His majority at this writing being 626 over Mr. Gouge, Liberal, who was next highest competitor, and 1,464 more than Mr. Douglas, Conservative, and 1,457 less than his two opponents combined. At present, however there are a number of polls still unaccounted for, but these will not likely make any material difference in the final result. Meantime Mr. Gouge has gracefully accepted defeat and wired his congratulations to Mr. Garland as the successful candidate.

While the figures for each poll cannot be obtained the following despatch from Drumheller may be considered quite authentic, as far as it goes, inasmuch as the returning officer resides in Drumheller, and no doubt they have been obtained from him:

"With eight small polls to hear from, which will not affect the result to any extent, the Bow River election results showed the following: Garland (Progressive), 3,587; Gouge (Liberal), 2,911; Douglas (Conservative), 2,073. Mr. Gouge conceded the election to Garland and wired him his congratulations. Garland's present majority is 626, which all came from the country polls in the south part of the constituency, and overcame the comfortable lead Gouge had in the north part, or north of the C.P.R. railway line."

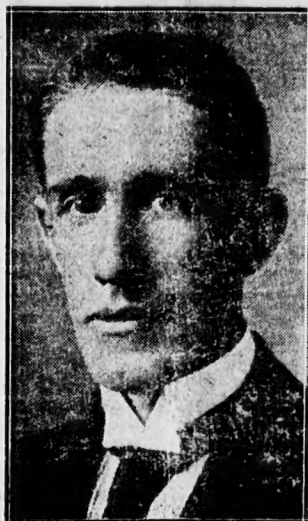

ATTENTION SCHOOL TEACHERS

The time has been extended to Friday, November 13th, for the essays written by the pupils of the schools competing in the recent Gleichen School Fair. The teachers are requested to allow a half hour for the writing during school hours, and immediately gather the manuscripts and mail to Mr. Peter Maclean, secretary, Gleichen.

Already some have sent in their copy and it is hoped all will do so at once, as judging will take place on Saturday, November 14th.

The Call is not printing the Bow River returns this issue as it is impossible to obtain anything like a full or correct report, but next issue hopes to give them complete more as a matter of record than of news.

The result in Gleichen was Garland 133, Douglas 171 and Gouge 99. Brown's bread now sells every where in Gleichen at 10c a loaf.

MR. E. J. GARLAND, M. P.
Elected for Bow River Constituency

ANOTHER UNIVERSAL

Fri. and Sat., Nov. 6 and 7th

"Dangerous Innocence" Universal Jewel production coming to the Gleichen Community Hall next Friday and Saturday evenings, is unique in film plays in that it is the first feature production for which over half the scenes were filmed on board an ocean liner engaged on a regular run between two widely separated points.

Brien are co-starring in "Dangerous Innocence," and they, with the other fifty members of the cast made the long trip. The party was headed by Director William A. Seiter. The steamer selected duplicates the ship described in the story, adapted from Pamela Wynne's "Ann's An Idiot." Many technical difficulties confronted the director and his camera men, Merrit Gerstad and Richard Fryer.

BOARD OF TRADE FIRST LUNCHEON

The first noonday luncheon of the Gleichen Board of Trade, held in the Queens' Hotel last Friday, proved a real success, over twenty members attending. Considerable business was transacted in short order, after which Mr. T. H. Beach gave a brief talk on "Trading at Home," which was followed by discussion in which several members participated. The result was the appointment of two committees one of which is to supply a report to the Call, but has not yet had sufficient time, and promise to do so for our next issue.

A pleasing feature of the luncheon was an address by Mr. Geo. H. Gooderham, who on behalf of the Board tendered thanks to Mr. Archie Ferguson for the splendid work he accomplished at the Potlatch last summer. Mr. Ferguson, who was present as a guest of the Board of Trade, in his usual hearty manner briefly replied.

On a vote being taken it was decided to hold the next meeting and luncheon on Monday, November 16th at the Queens' Hotel.

CRAIGANTLER ITEMS OF NEWS

Some of the crop yields differ greatly owing to the location of the land. Some stubble is going from 20 to 25 bushels to the acre while the summerfallow runs from 28 to 35 bushels to the acre.

Mrs. George Maclean, of Craigantler, is visiting with her parents Mr. and Mrs. J. A. Grant, for a few days.

Threshing is on in full swing and another two weeks of good weather will see most of the threshing done in this district.

Alberta Pacific Grain Co. WILL CARRY ON

We have arranged with the N. Bawlf Grain Co. to continue our elevator business until we can re-build in Gleichen, where we will be pleased to meet our customers and friends at any time.

W. D. ANDERSON, Mngr.

WORLD HAPPENINGS
BRIEFLY TOLD

The largest map in the world is being made at San Francisco. It is to be 600 feet long and 18 feet wide.

The largest caribou migration for twenty-five years was reported in the Copper River country, Alaska.

Britain's claim of 26 million pounds from Rumania on account of war debt has been scaled down to 10 million pounds.

The New York Times estimates the loss to the anthracite industry and three railroads by the strike of the anthracite miners, which began September 1, at \$165,000,000.

Manitoba's Government-owned telephone system is having a successful year. Total earnings for September were \$17,069.98, or nearly \$700 greater than August.

Foot and mouth disease among cattle is spreading in Lancashire, Eng., and two new outbreaks were reported recently. A large number of affected cattle have been destroyed.

The bylaw for the purchase of the Winnipeg Electric Railway for \$13,127,000 will not be submitted to the ratepayers at the civic election in November.

A public park is to be created by the territory of Hawaii at Kealahou, on the Kona coast. The park will include the monument of Captain James Cook, famous English navigator and explorer, and the 5,682 square feet of British territory which surrounds it.

Thirteen years ago 125,000 tons of traffic passed by the "Elephant and Castle," London, every year. Today the amount has increased to 155,000 tons. Traffic at Hyde Park Corner has grown from 59,000 tons in 1912 to 140,000.

A Cairo despatch to the Daily Mail says it is officially announced that Tut-Ankh-Amen's tomb was re-opened Oct. 12 in the presence of Egyptian officials. The lid of the sarcophagus was lifted, revealing another sarcophagus on which lay a thin linen cover and several bouquets of flowers in a good state of preservation.

Relics Of Ancient Mayas

Find of Explorer Are Now In British Museum

Relics of the ancient Maya civilization, to the number of about 300, which were unearthed by Mitchell Hedges, the explorer in the hitherto unknown interior of British Honduras, are now in the British Museum in London.

Most of them are fragmentary examples of pottery. Among them is a miniature head of a smiling man which might have been modelled today, so strikingly "modern" is its spirit.

It appears from the character of his finds, however, that Mr. Mitchell Hedges may well succeed in bringing to light data about the Mayas' lost civilization which may enable us at least to solve a great mystery, for the beginnings of the Mayas are rooted in mystery.

Among the finds he has brought to the museum is a potted die which suggests that printing was not unknown to the Mayas, and it is certain that they produced pottery with moulds.

Factory Turns Out Speeches

Pennsylvania Firm Sold Three Million Last Year

A writer in a United States paper has received a circular from a Pennsylvania factory for the manufacture and sale of after-dinner and other speeches. Before receiving this he had no idea of the magnitude of the industry. The management announces it sold three million speeches in 1924 and confidently expects to double the output in 1925. The thought is appalling.

We hear much of free speech, but the company claims to have sold these productions at prices ranging from 2 1/2 cents to \$10 each. Blocks of five can be had for \$2, of ten for \$3, and twenty for \$5. As to their quality: "The data is accurate, the English clear, forceful and original." What more could be wanted? If a set speech is not desired choice may be had of three hundred "snappy" stories, as many "toasts" for all occasions, plus one hundred ideas for entertainment committees. Twenty-five short prayers can also be had for 50 cents, to relieve anyone embarrassed by the call to "ask a blessing." The longest set was filed is "one hundred ways to introduce a speaker."

A Good Stayer

If the Turks who are trying to push John Bull out of Mosul were not "young Turks," they would probably know better than they seem to know that John is the champion sit-faster of the universe.—Boston Transcript.

Frailty Of Men Of Strength

It Is Found That the Strongest Frequently Die At Early Age

Twenty-five or thirty years ago Eugene Sandow was not only "the strongest man in the world," but he was unquestionably the finest specimen of physical manhood of his day and generation. Every boy who looked upon his much-photographed development longed to be like him. Now, at the age of 58, he is dead; the effects of an automobile accident some years ago are said to have hastened his end.

One week ago Sigmund Breitbart, again "the strongest man in the world," who was touring Canada a few months ago, died quite suddenly. There was also John Marks, who was Sandow's immediate successor. He tore horseshoes in two with his naked hands, smashed chains with a blow of his fist, stood on a high trestle and with a harness on his shoulders lifted an elephant off the ground. He died of consumption in his early forties.

The bulging muscle man is generally the object of envy and admiration by other men. The envy is sometimes unwarranted. The so-called strong man is often a frail reed, and if he is not he frequently becomes one because he neglects taking the care of himself that a less powerful man would do.—Ex.

Phone Test Is Successful

Alberta Now Linked With United States and Eastern Canada

Inaugurating a direct telephone service that will link Alberta with many points in Canada and with every state in the American Union, Lieutenant-Governor R. G. Brett, in the office of Hon. V. W. Smith, minister of railways and telephones, engaged in telephonic conversations with the secretary of the state of Montana, of Colorado and of Arizona at the state capitals of Helena, Denver and Phoenix, exchanging greetings with the people across the line.

Premier Greenfield and other government officials were present during the test, which was a complete success as far as these three states were concerned. The test as originally planned also includes direct connection with Ottawa and Vancouver, but owing to a short circuit six miles south of Wetaskiwin, caused when the wires became entangled with the telephone lines, the latter calls had to be postponed.

Cold On Planet Mars

Scientists Believe That It Registers 100 Degrees Below Zero At Frequent Intervals

Mars may or may not be inhabited, but if so it is a life apparently enjoying anything but a warm and salubrious climate. With the use of an extraordinary delicate instrument he has invented for finding out such distant facts, W. W. Coblentz, of the bureau of standards, Washington, has concluded that the mean annual temperature of the surface of Mars is in the neighborhood of 20 degrees Fahrenheit, comparing with the earth's 58 degrees.

The observations indicate that 100 degrees below zero can be encountered quite frequently on Mars. Most of Dr. Coblentz's work on the problem was done last August, when Mars came much closer to the earth than it does usually.

Must Have Just Settlement

Force Will Never Settle Chinese Issue Says N. W. Rowell

Addressing the Toronto Canadian Club at luncheon on the subject, "China and the Foreign Powers," Hon. N. W. Rowell, K.C., who has just returned from a tour of the Orient, declared that force will not settle the issue between China and the powers. A just settlement, he declared, while giving China autonomy in fixing its import tariffs and control over the trial of foreigners indicted for criminal offences, must at the same time protect foreign trade interests in the country.

"The boycott in China against foreign, especially British goods," he said, "has been practically 100 per cent effective, with the result that British trade there is at a standstill."

The First Potatoes

The potato plant is a native of Chili and Peru, South America. It is generally considered that potatoes were first brought to England from Santa Fe in tropical America, by Sir John Hawkins in 1565. Others ascribe their introduction to Sir Francis Drake in 1586. Their first culture in Ireland is referred to by Sir Walter Raleigh, who had large estates in County Cork.

Travel Note

The cabin of an ocean liner, says an insurance authority, is the safest place in the world, and a Pullman berth is next. Stay home if you must, but remember, you do it at your own risk.—Spokane Spokesman-Review.

Transfer Of Homesteaders

Will Move Farmers From Poor to Better Lands in Manitoba

Under an order-in-council passed Oct. 21, the Federal Government, in co-operation with the Government of Manitoba and the two railway companies, has inaugurated a scheme for transferring homesteaders in the province from poor farms to lands upon which they can make a success of agriculture. The transfer is to be made without cost to the settlers and it is expected that large numbers of homesteaders in the poorer areas of the province will take advantage of the scheme to move into better districts.

The settlers who require to be moved largely are located in the district to the east of Emerson, in the neighborhood of Stewardburn. There are numbers of settlers also along the Great Winnipeg water district railway who are expected to take advantage of the opportunity to move.

The settlers are expected to take up land in the northern part of the province, either in the Swan River or Dauphin districts, or between the lakes. As outlined in the order-in-council, the proposition is open to all homesteaders in the province of Manitoba who had obtained letters patent on their homesteads on or before Jan. 1, 1923. These men must first obtain from the Provincial Government a certificate granting them permission to move. Then, having obtained this certificate they must dispose of all their property in the district from which they are moving, having fulfilled these requirements, they must go to the nearest Dominion lands office and show their credentials. If everything is in order the land office will reserve for them a new homestead in a better district.

To Fight Tuberculosis

Canada to Take a Leading Part in Combating Dread Scourge

"Tuberculosis must go, and Canada is to play her part in the war which has been declared against this dread scourge of humanity." This is the sentiment which prevailed at the meeting at Ottawa of the National Research Council's Association Committee on Tuberculosis.

The federal departments of agriculture and health, who are working in the closest co-operation with the national research council in an endeavor to co-ordinate in one comprehensive program all tuberculosis research work in Canada, were represented at the conference.

In the course of an address, Dr. J. G. Fitzgerald, director, Connaught Laboratories, University of Toronto, gave a summary of the latest European developments in tuberculosis work. The problem, he declared, was being attacked there in two ways, the object being to obtain both a preventive vaccine and a satisfactory cure. Dr. E. A. Watson, chief pathologist, department of agriculture, discussed the question of preventing the spread of bovine tuberculosis; while Dr. A. C. Rankin, of the University of Alberta, and Dr. R. S. Woodhouse, of the Canadian Tuberculosis Association, also spoke.

The meeting was under the joint chairmanship of Dr. H. M. Tory, president of the national research council, and Dr. J. H. Grisdale, deputy minister of agriculture.

Publish Reminiscences

Lord and Lady Aberdeen Refer to Incidents in Canada

Lord and Lady Aberdeen have published two volumes of reminiscences under the title "We Two." One of the reminiscences is that when Lord Aberdeen was governor-general of Canada, Lady Aberdeen was supposed to have had a "bee in her bonnet" with reference to the servant question. An article from a Boston paper is quoted to the effect that while at Rideau Hall, Ottawa, Lady Aberdeen was in the habit of playing hide-and-seek with the house servants and footmen, and that Lord Aberdeen and herself dined in the servants' hall on certain days of the week.

What was true, according to the reminiscences just published, was that Lady Aberdeen founded a household club, the members of which were her immediate staff, and in connection therewith social and educational classes were organized.

Queen Victoria was so disturbed by the elaborate fiction about Lady Aberdeen's attitude toward the servants at Rideau Hall, the reminiscences state, that Her Majesty requested Lord Roseberry, the British premier, to ascertain whether it was a fact or not that the governor-general of Canada and his wife dined in the servants' hall weekly. The inquiry was made and the result was that the Queen's anxiety with regard to the matter was set at rest.

Oak trees are favorite targets for lightning.

ECLIPSE FASHIONS
Exclusive Patterns
by Hazel Rogers

Plaids Trim Distinctive Fall Dresses

Autumn silhouettes lend gracious lines to the woman of generous proportions. We suggest this simple model, that is the badge of good taste from its chic collar down to its hem. Heavy flat crepe fashions this tailored frock having a group of four three-quarter-inch tucks extending down either side of the front and back. The convertible collar may be worn buttoned high, or open with a becoming vestee set under the front. The sleeves may be long or short, and attractive shaped pockets are set onto the plaids. The diagram portrays the simple design of the partly finished frock. No. 1127 is in sizes 10, 42, 44, 46 and 48 inches bust. Size 42 bust requires 4 1/2 yards of 40-inch, or 3 1/2 yards of 51-inch material. Price 20 cents.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of book 10 cents the copy.

Motor Car Maintenance

Are Now Half a Million Pleasure Cars in the Dominion

Advances made by the automobile industry since 1921 were dealt with by G. D. Finlayson, superintendent of insurance for the Dominion of Canada, in an address to the fifth annual convention of the Ontario Fire and Casualty Insurance Agent's Association, at Toronto. The industry had increased by leaps and bounds within the past four years, and offered a field for insurance companies, according to Mr. Finlayson.

"The automobile has revolutionized our economies," stated Mr. Finlayson. "At the present time it is safe to say that there are 500,000 pleasure automobiles in Canada, and if we estimate the cost of maintenance at \$25 a month we would find \$150,000,000 is annually spent in this manner, or one-half of what the national debt was ten years ago."

Hungarian Settlers

Several Families From Hungary to Settle in Alberta

Baron Joseph Csavossy and his brother Andre, who recently bought out a ranch in the Cochrane district, Alberta, will bring several families from their homeland in Hungary as settlers. These prospective immigrants will be brought in over Canadian Pacific Railway lines and will be supplied with improved tracts of land on the Csavossy estate on their arrival.

Our Country

Canada is great. Canada is a land of which every man and every woman may be proud. Big things are ahead for our country. Let us be confident and determined, and success, glorious success, will be ours.—Border Cities Star.

The sinner should study nature. Even lightning never strikes a locomotive.

The Proof of the Pudding

Big Wheat Yields Reported in Many Districts

It is an old saying that the proof of the pudding is in the eating. By the same logic, the proof of the opportunities which Canada offers to farm settlers is in the returns which farmers already in the country are getting for their labor and investment. While the statistics for the Dominion as a whole are impressive, they do not carry the same personal conviction as the example of what has been done by individual settlers. Hereunder are a few such examples as published in the newspapers in the districts in which the crops have been harvested. They tell their own story:

A big yield of wheat is reported from the farm of E. Rasmussen, Crooked Lake, Alberta. The crop averaged 45 bushels to the acre from a field of 41 acres. The wheat was the Red Bobs variety.—Edmonton, Alberta, Journal.

C. W. Johnstone, of Deloraine, Manitoba, threshed a crop of wheat this season that averaged about 45 bushels to the acre. The usual averages in this district are from 30 to 40 bushels per acre.—Portage la Prairie, Manitoba, Graphic.

The estimated average of wheat yields in the Aberdeen, Sask., district show records according to information received here. On some farms wheat has run from 40 to 45 bushels per acre on summer-fallow. Oats have run up to 130 bushels to the acre, averaging 90 bushels per acre for the district around—Saskatoon Star.

Drastic Reform In Turkey

Mystics of Islam Are Removed By Government Decree

One of the most drastic and far-reaching reforms in Turkish life has gone into effect almost unnoticed by the outside world.

The government's recent decree closing all monasteries in the republic and permitting only secular religion has thrown out into the world some 20,000 Turkish monks and dervishes—mystics of Islam, who are totally unfitted by education or equipment for any other pursuit in life.

The summary decree at the same time removed from Turkish life one of its strangest and wildest classes, the dervishes.

These dervishes are divided into three categories—"howling," "whirling" and "whispering." They live largely on the ignorance and superstition of the Turkish peasants, who believe them to be invested with divine power.

Form "New Health Society"

British Organization Aims to Bring About Golden Age of Health

The London Daily Express says three former prime ministers of Great Britain, the Earl of Oxford and Asquith, the Earl of Balfour and Ramsay MacDonald, with a number of prominent physicians and hygienists, have formed a remarkable society aiming to bring about "a golden age of health" in England. This organization, which is to be formally inaugurated early in December, will be called the "New Health Society."

Its primary object will be the prevention of disease.

The promoters, according to The Daily Express, believe a "new race can be created by a new way of life." A nation-wide propaganda campaign is to be launched when the society is inaugurated.

Likes Crossword Puzzles

Premier Baldwin is Said to Be Devoted Follower of the Game

Premier Baldwin is a devoted follower of crossword puzzles. He discusses them with visiting statesmen, and one of his favorite tricks during a round-table conference dealing with security, debts or disarmament is to introduce a few remarks regarding knotty layouts of words. It is said, however, that Britain's leader always found difficulty in discovering puzzles sufficiently hard to give him a real tussle.

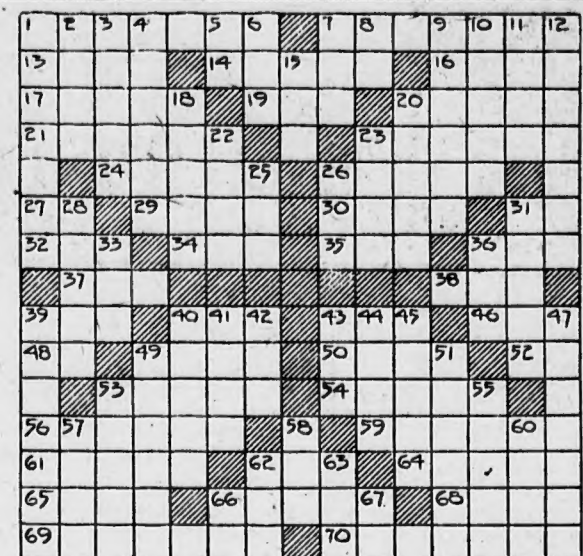

Our suggestion is that the prime minister learn the Russian language now that the craze is permeating parts of the land of the Soviet.

Dust Bath For Hens

Those who intend to have a winter dust bath must provide material for it ahead of freezing weather. The traditional value of road dust for this purpose is largely a myth, as ordinary earth is better and more easily obtained as a rule. Fowls like earth better than powdery road dust and it does not make the house so dusty when in use. Dry road dust is better than wet earth, however, as the latter will freeze and be unavailable when most needed.

It is reported that Washington will cut out the French war debt; will it then cut the British? If not, why not?—Kingston Standard.

OUR CROSSWORD PUZZLE

Horizontal

1—Argued.

12—Plunder.

13—Prepare for publication.

14—Promises to pay.

16—Grows old.

17—Openings for air.

19—Unit of weight.

20—Units of weight.

21—Lead through.

22—Change.

23—Sleep noisily.

26—Female.

27—Printer's unit.

29—Female sheep.

30—Wind instrument.

31—A province in Canada (abbr.).

52—Juice of trees.

54—Social clique.

55—Even (contracted).

56—Stinging insect.

57—Also.

58—Linger behind.

59—Dessert.

60—Fortress (Roman numerals).

63—A playing card.

66—Be continuously on the go.

68—Indefinite article.

69—Mexican high table-land.

61—An ancient order of architecture.

62—Accomplished.

64—Self.

65—Midday.

66—Title for married woman.

68—Always.

69—Saluted.

70—Young girls.

20—Devil.

22—Large woody plant.

23—Loose outer covering.

25—Superlative ending for adjectives.

26—Trouble.

28—Morning church service.

31—Commenced.

33—American poet.

36—Sac.

39—Fleeing.

40—Former Algerine pirate ship.

41—An Egyptian goddess.

42—Moving truck.

43—Perform.

44—Kind of fish.

45—Mohammedan principles.

47—Projecting windows.

49—Pertaining to the sea.

51—Joined interests.

53—Frail boat.

55—Part of a barrel.

57—Lean.

58—Secreted.

60—Level.

62—Father.

63—Check the flow of water.

66—Myself.

67—A parent.

Remove Tattoo Marks

Frenchman Claims to Have Discovered Formula For This Purpose

There is hope for the youth and maiden of yester year—sweethearts then, but strangers now. The little tattooed heart, pierced with a cupid's love, can easily be removed.

The secret of the process for effacing the India ink became known through the arrest of Antoine, "the knife thrower," one of the most notorious apaches in Paris. When he was taken into the Bertillon room for measurements, the police were surprised to find that two beautifully tattooed designs which formerly adorned his chest, had completely disappeared.

After long questioning Antoine modestly admitted that he had discovered a formula for removing the ink, which scientists had vainly been searching for. He was induced to part with the recipe, which is as follows:

"Four upon the tattooed part a solution of essence of tannic acid. Then, with needles similar to those used in tattooing, inject the acid into the skin, making the needle pricks as close as possible to each other. Rub the part treated lightly with a crayon of nitrate of silver."

Antoine declared that the wound would heal in a sort of black thick crust which would disappear after two or three weeks, taking along with it the tattooed design. He

ARMISTICE DAY CHURCH
SERVICES, SUNDAY
NOVEMBER 8A special Armistice Day church
service will be held on Sunday, No-
vember 8th, in the Gleichen Com-
munity Hall, at 2:30 o'clock in the
afternoon, at which the 22nd Battery
will be present in honor of those
members of the 22nd Battery C.E.F.
who answered the roll call on Fland-
ers Fields. All returned soldiers of
the district are requested to parade
with the Battery on this occasion.
The parade will fall in at the Arm-
oury at 2 o'clock p.m. sharp. Per-
mission has been granted for all ex-
members of His Majesty's Air, Sea
and Land forces to wear uniforms
and medals on this date. If not in
possession of a uniform, mufti may
be worn with medals. Major Mc-
Glashen, late Imperial Army, will be
in command of the returned soldier
section of the parade. A combined
service will be held in the Commu-
nity Hall with Rev. Mr. Bevan of the
United Church and Rev. Mr. Blunt of
the Anglican Church, both returned
soldiers, officiating. The general
public is cordially invited to attend
this service in honor of the fallen
comrades.GOVERNMENT LIQUOR CONTROL

GLEICHEN, ALBERTA, WEDNESDAY

CANADIAN BUSINESS CONDITIONS

The Royal Bank of Canada in its regular monthly
letter for November to be released today contains the
following encouraging remarks concerning Canadian
business conditions:Not since the beginning of the economic readjust-
ment period have fundamental conditions been more fa-
vorable to a healthy expansion of industry and trade.
There are already signs of improvement in the business
situation, and while for the most part they relate to sea-
sonal conditions, some of the changes are indicative of
the gradual restoration of balanced relations which are
so necessary to general prosperity. The readjustment
between adjustment between industry and agricul-
ture has during the past twelve months been mitigated
if not entirely relieved, and the highly satisfactory crop
returns now indicate that the purchasing power of the
farming community will be greater than for the past five
years and more widely distributed. The yield for the
three Prairie Provinces as estimated by the Northwestern
Grain Dealers Association in their mid October report
compared with the final estimates of 1924, are as follows:

	1925	1924
Wheat.....	400,385,000	235,694,000
Oats.....	392,653,000	223,325,000
Barley.....	65,355,000	70,630,000
Rye.....	9,220,000	11,126,000
Flax.....	6,895,000	9,577,000

Livestock markets showed a very encouraging tone
during the month. Supplies were heavy, but the export
demand from Great Britain and the United States was
strong. Hogs are bringing high prices, and this is likely
to be the case for some time to come owing to the short
supplies.The major industries of the country are generally
more active. The iron and steel mills are again operat-
ing closer to capacity. More than sixty thousand tons
of rail business has been placed, and the demand from
auto and agricultural implement companies has been
in larger volume. The important textile industry which
in 1924 had one of the worst years of its history is feeling
the stimulus of improved conditions and reductions in
primary costs gives the trade better prospects for earn-
ings. In woollen goods the situation is slightly better,
and in silks, including rayon, relative prosperity prevails.
The boot and shoe industry has been unsatisfactory for
some time, but there is a general report of better business
and leather prices are firmer.Commercial failures for the third quarter of 1925 show
distinct improvement both in number and extent of
liabilities. Our foreign trade continues to show a growth
that is particularly noteworthy. During September, ex-
ports amounted to \$108,497,911, a considerable increase
over \$80,960,729 for the corresponding month last year.
This represents a record total for this month since 1920.
For six months of the fiscal year ended September, total
exports were \$571,315,340, against \$482,091,934 for the
same period last year.The comfortable position of the money market, the
small fluctuations in commodity prices, light stocks of
merchandise, increased purchasing power based on good
crops and a high state of employment are factors which
collectively inspire confidence in the business situation.

WHY ADVERTISED GOODS SELL

There are many reasons why advertised goods sell
best. In speaking of nationally advertised goods, for ex-
ample, travellers are able to purchase the same brand of
cracker in the east as in the west and all of them are
equally good and crisp.And the same principles apply to all merchandise and
goods made or sold locally. The buyer knows that a local
advertiser is ready to stand behind his product because
his advertising is proof of his confidence.The advertiser is known and has pledged himself to
stand back of his merchandise. He has given his printed
word to the general public and must keep it. It is the
mark of good faith and is recognized by buyers of the
world over as such.Almost without exception, all improvements in pack-
ages or other containers have been the direct outcome of
advertising.The individuals who have reached achievements in
their chosen field have done so because of patient unre-
lenting toil, together with the conviction that their mes-
sage is peculiarly their own and hence worthy of beautiful
expression.WINTER

Be Not Deceived

You can't buy a suit or dress
worth \$40.00 at half the price.
We don't get any more than we
pay for, often less.And you can't get a pair of
glasses worth \$12.00 to \$15.00
at half the price.If you think no more of your
eyesight than to be satisfied
with a "superficial" examina-
tion and inferior glasses—then
only pay what they are worth
—which isn't much.Don't throw away good mon-
ey, thinking that you can get
a real examination and the
best quality of lenses and
frames for half their real val-
ue—you can't!A good pair of glasses—cor-
rectly fitted—will last for years
and be a source of real comfort
and pleasure.You will only have one pair
of eyes. Be particularly care-
ful with whom you trust them.
Registered by the Boards of
Examiners of Ontario, Mani-
toba and Alberta—with over
51,000 satisfied pairs of eyes
to our credit in 20 years prac-
tice—is a record of which we
feel justly proud.Examining eyes, grinding
lenses and fitting glasses is all
we know but we know that
well!

Conservatives Will Have Largest Single Group In The Next House

Ottawa.—Canada's general election ends with Rt. Hon. Arthur Meighen, Conservative leader, as head of the largest group in the next House of Commons. The returns showed 118 Conservatives, 97 Liberals, 20 Progressives, 2 Independents, 2 Labor and 6 doubtful. Eight members of the cabinet went under. They were: Premier King; Hon. W. E. Foster, minister without portfolio; Hon. James Murdock, minister of labor; Hon. G. N. Gordon, minister of immigration; Hon. G. P. Graham, minister of railways; Hon. Vincent Massey, member without portfolio; Hon. T. A. Low, minister of trade and commerce; Hon. J. E. Sinclair, minister without portfolio.

In the Maritime Provinces and in Ontario, Conservatives gained heavily. But the expected inroad into the Liberal stronghold of Quebec—on which Conservatives had counted—did not materialize. Hon. E. L. Patenaude, leader of the Independent-Conservative movement in that province, was himself defeated. Out of the 65 seats in Quebec, Conservatives only captured four, the Liberals holding 59 and two going to Independent candidates.

In the three prairie provinces four years ago, no Conservatives were returned. Manitoba has now elected 6 and Alberta 5. In the last named province Liberals made their greatest headway.

The next parliament will see the return of some once familiar figures. Hon. Robert Rogers, formerly minister of public works in the Conservative Government of Sir Robert Borden, will be back. Mr. Rogers defeated Ex-Premier Norris of Manitoba. During his western tour, Premier King announced his intention of taking Mr. Norris into his cabinet should he be elected. Sir George Perley, also a former Conservative minister and high commissioner in London during the war, is back. He was the only Conservative elected in the province of Quebec outside the island of Montreal.

There were four women who stood for election, but Miss Agnes MacPhail will again be the only woman member of Canadian Parliament.

New Viceroy Of India

Edward Frederick Lindley Wood Succeeds Earl of Reading

London.—Edward Frederick Lindley Wood, minister of agriculture and fisheries and former president of the board of education, is appointed viceroy of India to succeed the Earl of Reading, who will retire next April.

Mr. Wood is held to Viscount Halifax and is Conservative member of parliament for the Ripon division of West Riding, Yorkshire. He was also a member of Stanley Baldwin's first cabinet.

Removed To Leper Colony

Nanaimo, B.C.—Wong, a Chinese leper, discovered some days ago by provincial police on his vegetable farm near South Watlington, was taken aboard a boat and removed to the leper colony at Lazaretto, Bentick Island. Wong's shack and all his personal belongings were burned, and his faithful dog, who was his lone companion, destroyed.

Establishes New Department

Regina.—A department of farm management has been opened at the University of Saskatchewan under Professor William Allen; the department will conduct an economic study of Saskatchewan farming in 1926, selecting the material in the field during the spring and summer months.

Cargo of Reindeer

Ketchikan, Alaska.—When her engines failed the steamer, Nabesno, of the Alaska Steamship Company, rammed a wharf of the Ketchikan Wharf Company here, while stopping for water for 75 live reindeer the vessel was carrying.

Motors Cause Loss To Railways Chicago, Ill.—Losses to railways caused by motor competition are permanent, and will be multiplied with the completion of road building programmes, W. B. Baldwin, president of the Missouri Pacific, testified before the Interstate Commerce Commission.

Thinks Women Will Lead

Philadelphia.—Dr. W. Blair Bell, Liverpool, England, speaking before the American College of Surgeons, sees in the rise of women in political and industrial spheres a commensurate degeneration of the male sex.

W. N. U. 1601

New French Cabinet

Name of M. Caillaux Does Not Appear in the List

Paris.—Premier Painleve has succeeded in completing a cabinet which is satisfactory to everybody. M. Painleve takes over the portfolio of minister of finance. Aristide Briand retains the post of foreign minister. Other portfolios were distributed as follows:

Minister of Justice—M. Chautemps. Minister of the Interior—M. Schrameck.

Minister of Works—M. De Monzie. Minister of War—M. Daladier. Minister of Marine—Emile Borel. Minister of Commerce—M. Chautemps.

Minister of Agriculture—Jean Durand. Minister of Instruction—M. Delphos. Minister of the Colonies—Paul Morel.

Minister of Labor—M. Durafour. Minister of Pensions—M. Antier. The under-secretaries are understood not to have been changed, and the new combination tends slightly more to the left than the former cabinet.

It is significant that the name of M. Caillaux, minister of finance in the cabinet just dissolved, and the man who precipitated the present crisis because of his proposals on debt adjustment and currency devaluation, does not appear in the new ministerial list.

Disastrous Blaze In New Brunswick Village

Fourth in Four Years To Damage Business Section

Peticodiac, N.B.—Fire for the fourth time in the last four years swept through a portion of the business section of this village and caused damage estimated at more than \$40,000, in spite of efforts of the volunteer fire force with buckets and hand pumps.

The fire, the origin of which is unknown, burned to the ground five stores and three houses and scorched several other buildings including a hotel and two more stores.

The blaze raises the total of fire losses in the village to nearly half a million dollars in the last few years and each time it was the business section which was hit. Some of the structures burned have been built several times within a few years and were modern structures.

Challenges Court Jurisdiction

Col. Mitchell Says Court Martial Has No Authority To Try Case

Washington.—After having secured the retirement of three members of the court martial chosen to try him, Col. William Mitchell challenged the jurisdiction of the court.

The colonel pleaded that the allegations against him did not constitute any offence falling properly under the articles of war, and that a court martial therefore was without authority to try the case.

Campaign Under Difficulties

Peking.—The advance of General Sun Chuan-Pang, the Chekiang leader, toward Hsuehchow, in Northern Kiangsu, continues slowly, owing to the lack of rolling stock. The concentration of Marshal Chang Tso-Lin's followers there is equally slow. Serious fighting in that region is not expected to occur for at least another week.

U. S. Apple Crop

Washington.—The apple crop of the United States this year was forecast by the department of agriculture as 164,000,000 bushels, compared with 179,000,000 last year. In making public the figures the department observes that the average person consumes half an apple a day.

Variable Weather In London

London.—Within ten minutes in one day recently the London hotel and shopping district experienced hail, sleet, rain, lightning and thunder—but no fog.

Many visitors here have been disappointed when informed that the real fogs occur only in winter.

U. S. Navy Celebrates

Washington.—The United States navy recently celebrated its 150th birthday with expressions of optimism and official assurances that the morale of the nation's first line of defence is still high, and that its leaders are looking toward the future, undismayed by past events.

Advocate Germicide Surgery

Use Amply Justified Says American College of Surgeons

Philadelphia.—A movement that may result in the abolition of the use of the knife in all minor and some major operations was started at the fifteenth annual congress of the American College of Surgeons.

The board of regents of the college decided to inaugurate at the centennial of the birth of Lord Lister, organizer of antiseptic and germicide surgery, next April, a campaign of research and propaganda for the development and more universal use of those germicides which attack diseased cells in the body without destroying healthy tissues. The board resolved that the use of such germicides instead of the knife had already been amply justified, and also that the profession should know more about the new technique.

If a man had an internal abscess, speakers said, the only treatment had been the knife. It was pointed out that a germicide had been discovered which would destroy the abscess cells and leave the living tissues unharmed.

MAY ESTABLISH A NEUTRAL ZONE IN THE BALKANS

Paris.—A neutral demilitarized zone between Greece and Bulgaria, with commissions of conciliation for the adjusting of all local conflicts in the Balkans, may be one of the fruits of the settlement of the Balkan crisis provided by the council of the League of Nations.

Giving a spur to the Balkan states' ambition to elaborate the security pact, the council will probably undertake to establish principles to guide the Balkan statesmen in handling any future difficulties, and will exert all possible influence to have the Locarno agreement with Germany supplemented not only by a Balkan arrangement, but also by security pacts between other sections of Europe.

Thus will it hasten the convocation of a disarmament conference, which the Locarno protocol calls as one of the hoped-for results of the achievement of security.

The Balkan crisis, which came at the psychological moment in the new peace impulse given to European politics, has taken on international significance which entirely overshadows the conflict between Greece and Bulgaria. Four great powers, France, Great Britain, Italy and Japan, and six lesser powers, representing both the European and American continents, which together make up the membership of the council, solemnly registered their conviction and determination that henceforth conciliation and arbitration, and not the thunder of cannon, must be resorted to when disputes arise between states.

Good Season For Whalers

Seattle.—With a season's take of 10,000 barrels of whale oil from Bering Sea, off the coast of Northwestern Siberia, the steamer Kommandoren I, mother ship of the Vega Whaling Company, of Sandefjord, Norway, accompanied by four steam whalers, has arrived here. The fleet, the first in several years to hunt whales off the Siberian coast, operated under a concession from the Russian Government.

Debaters Defeat Oxford

Philadelphia, Pa.—Upholding the affirmative of the question, "Resolved, that this house favors the principle of prohibition," University of Pennsylvania debating team defeated Oxford University.

WHEAT POOL WOULD ACQUIRE MORE ELEVATORS

Regina.—The following statement has been issued by officials of the Saskatchewan Wheat Pool:

"A step which it is expected will have far-reaching consequences for the future of the association was taken by the delegates of the Saskatchewan Wheat Pool at their annual meeting held recently when they decided after a full discussion, that authority be given to the board to enter into negotiations with the Saskatchewan Co-operative Elevator Company with a view to acquiring their elevator system at the earliest possible date.

"One of the objectives of the pool since the early stages of organization has been the acquiring of its own facilities for the purpose of handling its members' grain. The first step in this objective was taken at the extraordinary meeting of delegates held in February when the incorporation of the Saskatchewan Pool Elevators Limited was confirmed, and the board of directors was instructed to acquire elevators at points in Saskatchewan not already served by the Farmers' Companies, where 10,000 or more wheat acres had been signed up under contract to the pool. A further step was taken when it was decided that elevators should also be acquired at shipping stations served by the Farmers' Companies where the pool controlled 30,000 or more wheat acres. Under this policy 86 elevators have either been purchased or erected and are in operation for the 1925 crop."

Seed Cleaning Plant

Saskatchewan Registered Seed Growers Lease Plant at Moose Jaw

Regina.—Unanimous approval of the proposal made by the directors of the Saskatchewan Registered Seed Growers' Association to lease the Moose Jaw plant for a year with an option to purchase has been given by the shareholders voting.

The association will open the plant this week, when cars of wheat, oats, barley and flax will begin arriving at the plant to be cleaned and inspected for registration by the Canadian Seed Growers' Association.

E. G. Booth, M.S.A., has been appointed superintendent of the plant which has a capacity of 250,000 bushels. W. E. Walker, B.S.A., will be the Dominion seed inspector at the plant. M. P. Tullis, manager for the association, said the plant would also accept custom cleaning for farmers in the Moose Jaw district at a nominal fee.

Complete Extension To Plant

Saskatoon.—"While we would not care to commit ourselves to a definite statement right away, we would not have bought property to provide for an extension of the present plant had the extension not been contemplated," said Thomas Reynolds, local manager for the Quaker Oats Company, when questioned as to the possibility of an extension to the company's plant this year.

Hugo Stinnes Son Comes To U. S.

Berlin.—Tired of family quarrels and squabbles with bankers and receivers of the remnants of the family fortunes, Dr. Edmund Stinnes, eldest son of the late Hugo Stinnes, industrial magnate, has secretly embarked for the United States. His unexpected departure, friends say, represents a determination by young Stinnes to seek a new business environment.

Accomplish Long Flight

Rome.—The Japanese aviators, Abe and Kawachi, who recently completed a flight from Tokyo to London, have arrived here.

Diplomat Sails On "Empress Of Canada"

Great Britain's minister to China, Sir Ronald MacLeay and party photographed on board the Canadian Pacific S.S. Empress of Canada, prior to sailing from Vancouver for the Orient recently.

Mr. B. C. Newton, on the left, and Colonel the Hon. Sydney Peel, on the right, grandson of the famous Sir Robert Peel and son of the late Viscount Peel, at one time speaker in the House of Commons, will act as delegates with Sir Ronald at the forthcoming Chinese customs tariff conference, opening in Peking on October 26.

The ladies in the group are Lady Della Peel, centre, and Lady MacLeay, on her left.

May Be Message From Wrecked Coaster

Found In Bottle Off Wark Island October 24

Vancouver.—What may prove to be a message from men who died at sea nearly a year ago was picked up off Wark Island, Graham Beach, October 24.

D. Cordilla, of Butehead, which is Graham Beach, found a bottle containing a message purporting to come from the lost coaster Haysport Number 2, which disappeared with all hands in Mill Bank Sound during a storm on January 28, 1925.

The ship was proceeding north with a cargo of explosives for one of the northern mines with four men on board, Captain Partington, Mate Addison, Engineer Polley and a deck hand named Wood. She was last sighted in the storm heading to sea. Later, some wreckage was picked up, but no sign of the ship herself. And none of the bodies of those on board was ever recovered.

Mr. Cordilla reported that the note reads: "We are wrecked at Mill Bank Sound. No escape from drowning. (Signed) Steamer Haysport."

Toronto Honors

Robert J. Fleming

Street Traffic Suspended Two Minutes During Funeral Service

Toronto.—Toronto's street traffic ceased for two minutes and many people stood in the snowswept streets with bared and bowed heads when the funeral service of one of the city's favorite sons, Robert J. Fleming, street railway magnate, was held at the Timothy Eaton Memorial Church.

Seldom has the city of Toronto witnessed such general demonstration of mourning in connection with the death of one of its citizens.

From 12.30 to 2.30 o'clock the body lay in state at the church and hundreds of people passed to pay their last respects.

The body was interred in Mount Pleasant cemetery.

EXPLANATION OF FATAL RIOTING IN DAMASCUS

Alexandria, Egypt.—Reports that the fatal rioting in Damascus was caused by the action of the French in exhibiting bodies of rebels executed in the neighborhood of the city, is reiterated by refugee Syrians arriving here from Beirut.

The leader of the revolt was a Mohammedan chief named Hassan El Kharrat who entered Damascus at the head of a mixed force of Mohammedans and Druse tribesmen. Hassan sent criers throughout the city inviting people to remain in their houses, and then attacked a police post in the Chagour quarter.

Next he moved against posts in Medan and Bab Tuma, the Christian quarter. The French forces and their families withdrew to the Mezzi and Bab-es-Salahiyeh quarters in the north of the city, and opened a bombardment on the Chagour, Medan and Babeserji quarters, which are densely populated. Shells fell every three minutes, incendiary and high explosive. The bombardment lasted 48 hours.

A delegation of notables approached General Gamelin and appealed for a cessation of the bombardment, since the rioters had evacuated the town to save their relatives. General Gamelin, the refugee declares, replied that he would not cease firing and the bombardment continued a further six hours.

Statement Of Trade

Very Encouraging

Report Shows Large Increase In Canada's Exports

Ottawa.—Canada's exports for the 12 months ended September 30 show an increase of \$84,827,169 in value as contrasted with a similar period ended September 30, 1924.

Canadian imports for the year ended September 30 also show an increase of \$26,457,239 as compared with the corresponding period ended September 30, 1924.

Total exports from Canada according to a report just issued by the Dominion bureau of statistics for the 12 months ended September 30, totalled \$1,158,290,739, as against \$1,073,463,570 for the corresponding period ended September 30, 1924. Total imports for the year ended September 30 last were valued at \$852,623,241 the report shows, against \$826,166,002 for the same period ended September 30, 1924.

Demands To Be Made Upon British Govt. For Home Rule For India

Canada Not Involved In Wembley Deficit

Dominion Provided Her Part and Paid For It

London.—The Duke of York presided at a farewell dinner given by the British Empire Exhibition commissioners for the dominions and colonies to the exhibition board and administrative staff.

The Duke of York, responding to a toast to His Royal Highness as president of the British Empire Exhibition this year, said the dominions, colonies, protectorates and mandated territories had proved in connection with the exhibition that there was little or nothing that could not be produced within the empire.

This statement was greeted with cheers.

While the guarantors of the British Empire Exhibition at Wembley are expected to have to find 75 per cent. of their guarantee, that is, 15 shillings for every £1 guaranteed, no liability will attach to Canada in the matter of any deficit in connection with the big show. Canada simply provided her own part of the exhibition and paid for it—practically out of hand. At least she has involved herself in no further liability than that connected with the Canadian Pavilion at Wembley.

Destruction In Damascus

U. S. Consul Presents Demands For Redress to French Authorities

London.—A Jerusalem dispatch to the Daily Telegraph says that homes of American residents and buildings of American companies in Damascus were destroyed during the insurrection of October 18 to 21, and that the United States consul has presented a demand for redress to the French authorities.

The dispatch also says a large part of the Jewish quarter of Damascus was destroyed.

"All Syria is reported to be aflame with discontent," the dispatch continues, "and this may be the beginning of a new war of Islam against the Christian powers. No one knows where the next attack may occur."

Newspaperman Elected

Regina.—C. R. McIntosh, of North Battleford, the successful Liberal candidate, is the only newspaper editor elected from the west. He is the publisher of the North Battleford News and has served several terms as president of the Saskatchewan Press Association, and has been a member of the executive of the Saskatchewan branch of the Canadian Weekly Newspaper Association since its formation.

A Turkish Phenomenon

Constantinople.—Devout and patriotic Turks are making pilgrimages to the home on the Bosphorus of a poor peasant couple, to whom has been born a son with a birth-mark on his right leg said to resemble Turkey's national emblem, the star and crescent. Well-wishers say this is a certain sign of future greatness. The phenomenon has also excited the Turkish medical world.

SUNDAY SCHOOL LESSON

NOVEMBER 8

PAUL'S FAREWELL AT MILETUS

Golden Text: Ye ought to, help the weak, and to remember the words of the Lord Jesus, that He Himself said, It is more blessed to give than to receive. Acts 20:35.

Lesson: Acts 20:1-38.

Devotional Reading: Psalm 126:1-6.

The Text Explained and Illumined

Paul Reviews His Ministry at Ephesus, verses 18-21. See The Historical Background. From Miletus Paul sent to Ephesus to ask the elders of the church there to come to meet him. In the churches which he founded Paul had established the office of deacons and had ordained elders after the model of the Jewish synagogue. Peter, in his Epistles, calls himself a fellow-elder; and Paul calls these church officials sometimes elders and sometimes bishops, using the latter term, which means literally overseers, or superintendents, in churches where the Gentile element was large.

When the Ephesian elders arrived, Paul began his talk by recalling to their minds his mode of life while among them. First of all he spoke of his "lowliness of mind." Humility was a remarkable virtue in Paul, for it was an uncommon one in his day. Fear of giving offense to the Jews and endangering his own life had not kept him from preaching a crucified Christ, the need for repentance and faith, and the gospel to Gentiles as well as Jews.

Delhi, India.—A movement to formulate "Constitutional demand for the native states of India," which is likely to affect the whole trend towards self-government, will be in the limelight shortly when a conference is to be held in Delhi under the presidency of N. C. Kelkar, a prominent leader of the Swarajists or Home Rulers.

Definite demands upon the British Government are being formulated in connection with the coming conference. It is understood, and it is said the demands will include the following:

Absolute supremacy of law and the judiciary to be independent of the executive; an elected representative assembly of which the legislature of each state is to be a part, and to which the executive of the government will be responsible and subordinate; a system of autonomous local institutions; an executive council of which at least half the members will be elected by the representative assembly; full freedom of speech and criticism, subject only to the conditions imposed by the ordinary penal law.

These demands are described as a score of Indian Magna Charta.

Manitoba Feeder Show

Entries Approximately Double That of Last Year

Winnipeg.—With an entry list approximately double that of last year, the third annual Manitoba stocker and feeder show was opened here.

The Pelican Indian agency at Brochet, Alta., captured first place in the three-year-old carlot class. Balceovski and Finkelstein, of Ronolane, Alta., however, captured the bulk of the awards in this division, taking second, third, fourth and fifth. They also won second for the two-year-old group of five. James D. McGregor, of Brandon, Man., won in the yearlings and calf class, while second place for yearlings went to the Lloydminster Co-operative Association.

Noted Canadian Artist Dies

John Colin Forbes Painted Many Distinguished Public Men

Toronto.—Following a lengthy illness, John Colin Forbes, R.C.A., is dead in his 79th year.

During his lifetime he has been one of the most distinguished of Canadian artists. His specialty was in portraiture, and in his time Mr. Forbes painted some of the most distinguished public men in Canada and Great Britain.

He also had the honor of painting the late King Edward and Queen Alexandra, under commission from the Canadian Government.

Coal From Germany

Portland, Maine.—A cargo of 4,000 tons of German coal, said to be the first to be imported into this country since the war, is due to arrive here in about five weeks. It was announced by local dealers, who are seeking to relieve the fuel shortage in Maine. The coal will come in three sizes, stove, egg and nut, and will be priced about the same as Welsh coal.

Alberta By-Elections

Edmonton.—Six by-elections are to be held in Alberta about December 20, to fill vacancies in the provincial house caused by six members becoming candidates in the Dominion election. Announcement of the decision to hold by-elections rather than a general election, was made by Premier Greenfield last week.

Remade Ancient Roadway

London.—The whole of Cornhill has just been closed for three weeks while an army of laborers, working day and night, remade the ancient roadway.

Running through the heart of London, from the Mansion House to Leadenhall Street, Cornhill has from the days of the Romans been one of the main arteries of the city.

Secures Largest Moose

Frederton, N.B.—E. C. Rogers, of Putnam, Conn., has secured the largest moose head taken out of New Brunswick forests during the 1925 hunting season. The antlers had a spread of 64 inches. Mr. Rogers obtained his trophy in the Bald Mountain district on the Miramichi.

Australia's Wheat Yield

Adelaide, Australia.—South Australia's wheat yield for the 1925-26 season is estimated at 32,964,000 bushels, an average of 13.10 bushels an acre and an increase of two million bushels from the previous season.

Reefs of Debt

THE man or woman who plunges into thoughtless spending, making no provision for the future, faces financial shipwreck on the relentless reefs of debt.

Men in debt no longer control their time or their careers. Others control them. To remain in debt is to have to do without, in bitterness of spirit.

The habit of saving part of every dollar you earn will help to keep you clear of debt, and will enable you to enjoy comfort and contentment in the days that are to come.

Our Budget Book will suggest a savings plan to fit your income. Ask our Manager for a copy.

NOTICE OF SALE

Under the Domestic Animals Act (Municipalities)

One bay horse, about 6 years old, weight about 1100 lbs., blotched brand on right shoulder; and one bay horse, 4 years old, weight about 900 lbs., no visible brand, were on the 5th October, 1925, impounded in the pound kept by G. T. Jones and situated in the Town of Gleichen, Alta., and were sold on October 21st, 1925, to Frank Allison, of Gleichen, Alta. For further information apply to G. B. HYNDMAN, Secretary-Treasurer.

RETURNED SOLDIERS BANQUET ON ARMISTICE NIGHT

WEDNESDAY, NOV. 11TH

The returned men of Gleichen and district are holding their annual banquet on Wednesday, November 11th, in the Gleichen Community Hall and the Gleichen Women's Institute have kindly consented to act as hostesses. Any returned men in the district not receiving a printed invitation please communicate at once with Messrs. G. H. Gooderham or J. Lunan. It is hoped that all returned men will avail themselves of this occasion to celebrate the Armistice and renew old friends.

Alberta's new Lieutenant Governor is Dr. William Egbert, of Calgary, whose appointment to the position was made the past week. The new governor took the oath of office on Thursday. Dr. Egbert succeeds Dr. Brett, who has been governor for the past ten years. He is a resident of Calgary of many years standing.

The provincial schools of agriculture at Vermilion, Olds and Claresholm have opened for the 1925-1926 term, with an attendance which will total upward of 350 when all students have arrived. The schools are anticipating the heaviest registration in their history. The parties of British boys who are to train here under the Hoadley scheme, have been distributed with 24 at Claresholm, 20 at Olds and 22 at Vermilion.

Mr. and Mrs. Ben Frances are happy in the arrival of a daughter at the home of Mrs. Pobst in Gleichen on Saturday, Oct. 24th.

It is not the easiest thing in the world to wash soap off a window and say you like the job—yet most of us have "washed" in the last few

TOWN AND DISTRICT

Brown's bread 10c a loaf.

Two dollars will pay new subscribers to the end of 1926.

Mr. and Mrs. E. J. Woodward announce the arrival of a fine baby girl on Monday, November 2nd, at the home of Mrs. Pobst.

Skating on the sloughs has been fairly good the past week and the boys and girls are having a glorious time on Lac la Belling.

A balmy chinook wind started last Thursday morning with the opening of the polls. No doubt whatever the election was responsible?

The Women's Auxiliary of St. Andrew's Church will hold a sale of work and home cooking and whist drive and dance in the Gleichen Community Hall on Thursday evening, Nov. 26.

There is no sm aleichtado FR FR

There is no small credit due the Calgary Herald in broadcasting the results of the election last Thursday night and radio fans were quite delighted with the clean and efficient manner in which the Herald handled the returns, not only that night but daily since.

Miss Olive Pobst has returned to her home in LaVerne, California, for the past five years, concluding her education with a summer course at the Hollywood university. She is glad to be home again and intends remaining permanently.

Joe Marshall arrived in town yesterday from Calgary to renew his acquaintances with his many young friends. After an absence of six years he sees many changes in town. Joe is a Gleichen born boy and all will be glad to know he is making a success in the piano business, which is natural as he is a musician of considerable ability.

The C. S. E. T. is broadcasting over C. F. A. C. on Friday evening between seven and eight o'clock. Perhaps someone with a radio, who is sufficiently interested in boys will invite the Trail Rangers to listen in that evening. There would be about fifteen boys. If interested phone 24. This is a talk for the boys from the provincial office in Calgary.

The election dance given by the Hall committee in the Community Hall last Thursday night proved to be most enjoyable, there being present just a nice crowd for the size of the hall, which frequently is crowded with lovers of the light fantastic. The election returns supplied in the hall by Messrs. Bottrell & McLeod also proved quite satisfactory.

A Halloween party held at the school house last Friday was a great success. The ladies of the district brought cake and cocoa and after a good program by the children under Miss D. Glambek, the teacher. The mothers of the children thought the teacher deserves great credit for the progress in the past two months.

The ladies of the United Church Circle certainly deserve a lot of credit for the Halloween Thicken dinner they served last Thursday evening. After the hard fought election battle it was just what was most required to stimulate the weary and cheer the victors. It was served in excellent style and in quantity to satisfy the most ravenous. The dining hall was artistically decorated for the occasion. The luncheon served at midnight was also another feast of things dainty and satisfying. Both feasts were really worth much more

than the small charge made. A big

LOCAL OPTION VOTES

A total of twelve local option votes have now been held in the province, and of the twelve, four have been "wet" and a balance of eight dry.

The largest "wet" vote was recorded at Sturgeon, where the vote was 401 for to 487 against. The other localities to vote were Islay, by one vote, Langdon and Shepard, where the vote was 312 for and 322 against, and Oatton where the vote was 13 for and 14 against.

The communities voting dry were as follows: Bently, 74 to 23; Galahad, 26 to 25; Cayley 40 to 10; Parkland, 159 to 102; Irma, 55 to 11; Lethbridge, 25 to 12; Fleet, 11 to

6; Kinsella, 148 to 95.

The Gleichen boys and girls spent a great time Halloween night, having the usual sport and doing little harm other than overturning a few parliament buildings, changing gates etc. Many business windows had the usual quota of soap next morning and not a few denizens were heard gently cussing, and, of course, the crusty old fellows got a little mad. But all told nothing serious happened and the big and little boys and girls are happy.

The big car was speeding toward a railway crossing when a fast-moving freight train came into sight.

Immediately the two men in the front seat began an argument as to whether or not they could beat the train.

"Don't get excited!" cried the driver. "I tell you I can easily make it."

"And I tell you y' can't!" shouted the other man. "The train will beat us by minutes."

The driver kept increasing the speed of the car while the argument continued. Finally, the man in the rear seat, who, up to this time, had remained quiet, frantically clutching the sides of the car, could stand it no longer.

"Well," he shouted, "I don't give a damn who wins this race, but I hope it ain't no tail!"
